DESCRIPTION

ABS Deck-Cargo Barges for Lease - Charter. In current service with all certs current.
The barges are designed to handle ro-ro, flo-flo, breakbulk, and container cargoes. They can be ballasted down for semi-submersible work by external pumps. They can carry portable ro-ro ramps. They have extensive experience in oilfield work as well as transporting large crane systems, smaller inland vessels, and project cargoes both worldwide and domestically.

Should your charter cargo need to be containerized, the barges are set up for 53-foot long containers, and can be stacked up to five high. Other container sizes can also be accommodated.
